

pumpkins - courgettes - fennel - kohlrabi - teendra - cho cho - lettuce

onions - potatoes - raspberries -

Do you
GROW
YOUR

FOOD
OWN
?

**When you've had all
you can eat, swap or
share, do you
sometimes still have
fruit and veg to spare?**

Sell your surplus to other local people!

Organiclea's CROPSHARE scheme means gardeners and allotment holders who grow without chemicals can sell their surplus legally through our community stalls, box scheme and cafe.

We're in our fourth year of a partnership with over 20 keen growers like you across north and east London, supplying our local customers with fresh surplus produce.

Be part of something special - grow food, grow your local economy!
